The Seekers Guide

Dear Cariad,

Welcome to the Divine Rays Oracle & Affirmation Cards!

This is an immensely powerful Oracle & Affirmation Deck.

Each card contains channelled information, images and affirmations from the Patrons of the Divine Rays themselves.

You simply need to decide how you want to work with them, shuffle the cards and 'ask' which card do I need today?

Here are some ideas for use and guidelines to help you get the most out of your connection with these powerful vibrations and beings of light.

As An Oracle

I've been teaching Intuitive Development for many years; here is a short guide explaining where to begin with any card reading practice

- Protection – invoke protection from your Guardian Angel and Guides (see Page 10 of The Book of Many Colours)
- Intention – always request support or information for the highest good of all (avoiding any karmic implications)
- Clarity – ensure your request or question is clear and direct
- Relax & flow – use all of your clair senses to receive information (ask for clarity if you need it)
- Give thanks & affirm that communication is closed.

As An Affirmation Deck

Affirmations are positive statements that can help you to challenge and overcome self-sabotaging and negative thoughts.

By repeating an Affirmation you are essentially re-programming your brain. When you repeat them often, you can start to make positive changes.

Each Ascended Master or Angelic Patron has given an Affirmation that can support you in several ways:

- As a way of tuning into the energy of a Divine Ray during meditation
- As a daily Affirmation to align with the energy you want to experience that day
- As a way of remembering who you truly are, a spark of the divine having a human experience.

Affirmations are incredibly powerful tools for self-help, personal and spiritual development.

Repeating your Affirmation while looking at your reflection in a mirror may assist your practice.

You can choose which Affirmation to use by simply shuffling the pack and asking 'which Divine Ray Affirmation do I need today?'

As A Meditation Aid

You can use a card during a meditation to connect with a Divine Ray or it's Patron.

There are full details and lots of tips on Page 22 of The Book of Many Colours; a free recorded meditation is available on the same webpage as this document to assist you.

I've also created a beautiful downloadable Meditation Journal so that you can record your journeys and connections with these amazing vibrations and beings of light.

I hope that your Divine Rays Oracle & Affirmation cards, the wisdom, inspiration and enlightenment from the connections they support, bring you much joy and support you on your life's journey and align you to your soul's path.

Abundant & brightest blessings,

Angela Orora Medway-Smith
